

2022. Application period

6.1_{Wed} - 6.30_{Thu}

Screening method and schedule

Primary screening

Screening will be made based on the information provided in the application form. Results will be notified by e-mail by July 15 (Friday).

Second screening

Screening will be made through individual hearings and interviews from July to September. Results will be notified by e-mail by September 20 (Tuesday).

Activity schedule

The activity period will be from October to December 2022 and from January to March 2023. Details of each activity will be reported in the interim report in December 2022 and the final report in March 2023.

Eligibility

Kyushu University undergraduates and post graduate students (Students studying abroad, having plan to study abroad, on a leave of absence can also apply.)

Number of assistants

around 5 people

Grants

(1) A grant of 1 million yen / year to 2.5 million yen / year will be provided. The amount will be determined based on the applicant's concept and activity content.

(2) The grant will be paid in two times. The first payment will be made in October, and the second payment will be made in January after the interim report of the activities in December. A final report on activities for six months will be made in March.

(3) Since the grant payment is considered as income, grant recipients are required to file their own finalization tax returns.

Application method

Fill out the application form on the internet at the URL below and submit it to apply.

Application Form

The First

Kyusoukai Fund

Kyusoukai Fund is looking for Kyushu University students who are aware of the current situation, recognize social issues that need to be solved, and wish to solve the problems by social implementation through business with a constructive and critical spirit.

Students eligible for the fund

(1) Students who have a deep awareness of the current situation and can immerse themselves in thinking about it from diverse perspectives. (2) Students who are aware of essential and major social issues that have not been solved yet and have a strong desire to "do something about it". (3) Students who can persistently work to solve social issues with a constructive and critical spirit, without being distracted by easy ideas and trends. (4) Students who are able to solve problems through collaboration; who can find colleagues to work together on things that cannot be handled by themselves. (5) Students who have a strong desire to grow up as human being through the activities of this fund.

Required activities

(1) Verbalize your awareness of your own problems and define the social issues you want to solve. (2) Devise a solution to the problem with a wide range of free ideas, regardless of trends or existing frameworks. (3) Aiming for social implementation through business by testing hypotheses (=action) repeatedly of the solutions devised.
