

Smart tour guide

MyLocalGuide

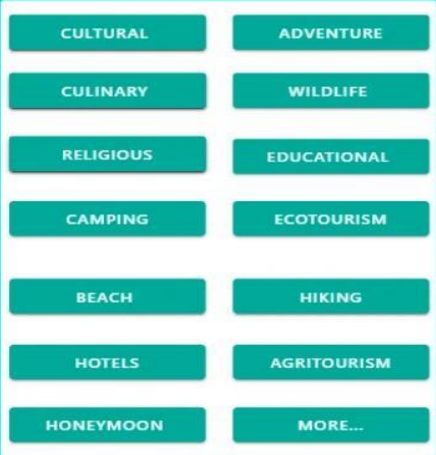

Are you a foreign tourist in Japan?

Language barrier is a huge problem for foreign tourists in Japan. We help overcome this barrier through a smart tour guide. Users can get any information or history of their surroundings through auto navigation. Moreover, they also get to know the norms and rules in Japan if they do not know much about Japanese culture.

What We Do

MLG works as a smart tour guide, which helps reducing language barrier, scams, and lack of prior knowledge in Japan.

Auto Navigation
The app will talk to you just like a tour guide. You can now know history and information of any place you walk by! Have whole world in your headsets!

Selective Tourism
Interested in a specific type of tourism? Leave it to us. We will show you tourist spots according to the filters you set.

Rules and Norms
Don't know much about Japanese culture, rules, and norms? We got you! Turn on your live location, and we will tell how you need to act in that place.
