4	ITecMarin Co., Ltd. https://www.itecmarin.com/	Fukuoka Tenjin Fukoku Seimei Building, 15F, 1-9-17 Tenjin, Chuo-ku, Fukuoka 810-0001	We, ITecMarin Co., Ltd. are a company that operates in the area of "Shipping x IT". The shipping industry is generally not well known and is a legacy industry that is shrinking due to an aging population and labor shortages. We are trying to solve such problems in the shipping industry by raising awareness, supporting recruitment and human resource development. Our primary goal is to "transform the shipping industry". We are trying to improve the issues faced by the shipping industry through IT, first in Japan and eventually overseas. In addition, although we currently focus on providing services to people working in the industry, we hope that we can be the foundation for the maritime industry in the future, as it becomes more and more IT-intensive with communications, security, and other areas becoming automated.	3-4
5	NIPPON TELEGRAPH AND TELEPHONE WEST CORPORATION https://www.ntt-west.co.jp/	4-15-82 Higashinoda-machi, Miyakojima-ku, Osaka 534-0024	As a pioneer in using ICT to solve social issues, NTT West Group is committed to contributing to the realization of a sustainable society. Based on the traditional skills and knowledge that we have inherited and refined from our predecessors, we will incorporate innovative technologies from Japan and abroad to realize digital transformation (DX) of society and industry, as well as regional revitalization. In addition, we will further develop highly skilled human resources and expand the circle of collaboration with our partners to proactively create new businesses and solve various issues. I am determined and determined to continue to work with determination and conviction so that we can continue to be an attractive company for our customers, partners and employees.	3-4
