An Insider Perspective: Designing Frameworks for Quality-led Entrepreneurial Education in the UK and Europe.

The UK Quality Assurance Agency for Higher Education (QAA) is a regulatory body that enhances quality and standards in the UK university sector. Following a call from the 2010 International Entrepreneurship Educators Conference for 'Improved Guidance on Issues of Quality and Assessment', a multi-stakeholder team was brought together, and a Framework was launched in 2012. This caught the eye of the European Commission's Joint Research Centre, who following extensive research, developed the EntreComp Framework for Europe. In 2018, and following a call from the UK Prime Minister, the QAA guidance was reviewed and updated. Bodies such as the UN, the OECD and education quality teams across the globe have referenced these documents. This session offers insights into the challenges and opportunities that arose, and shares some of the successes of the approaches developed.
